

# Sandalwood Powder/Essential Oil

Sandalwood is one of the world's oldest and most valuable natural resources. With the demand for sandalwood oil threatening to make the species extinct, SANTANOL offers pure, ethical sandalwood.

## Sandalwood Powder

Sandalwood powder is an **upcycled raw material** that utilizes the "fine powder of heartwood and sapwood" produced in the manufacturing process of sandalwood essential oil.

- It is expected to have skin care effects derived from the essential oil components contained in the powder.
- It can also be used as a scrub ingredient in facial cleansers.

## Sandalwood Essential Oil

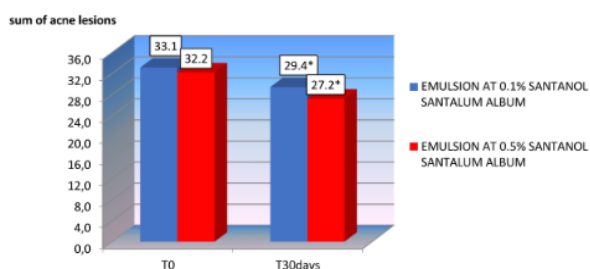

Essential oil of sandalwood extracted by steam distillation.

- It is expected to have many added values such as anti-inflammatory effect, anti-acne effect, and hair loss prevention effect.
- It can be used as a base note for high quality fragrances.
